        application to visualize team's process
    App Dynamics Dashboard
      • Visualized the health metrics of the Home Depot Supply
        Chain Team projects

Projects

EBT Solutions in Farmers' Markets
    Partaking in the entire user-centered design process to
    design a solution to help make utilizing EBT at farmers'
    markets more successful process

Moe's Voice Interaction
    Undergoing an extensive user research process to
    understand how voice can be used in the context of
    Moe's Southwest Grill

Stumble
    Combined user research methods such as surveys,
    interviews, and observations in order to design an
    app to help users create outfits using a virtual closet

The Georgia Way
    Utilited the user-centered design process to create an
    iOS app that connects UGA athletes in order to prepare
    them for a career after athletics
